ARRIVAL INSPECTIO

- **Smart Curtain Motor** × 1
- **Track** × 1
- **Network Pairing QR Code** × 1

Figure 1

OPERATION INSTRUCTIONS

Entering Setup Mode:

The motor will automatically exit setup mode if no operation is performed within 10 seconds (as shown in Figure 2).

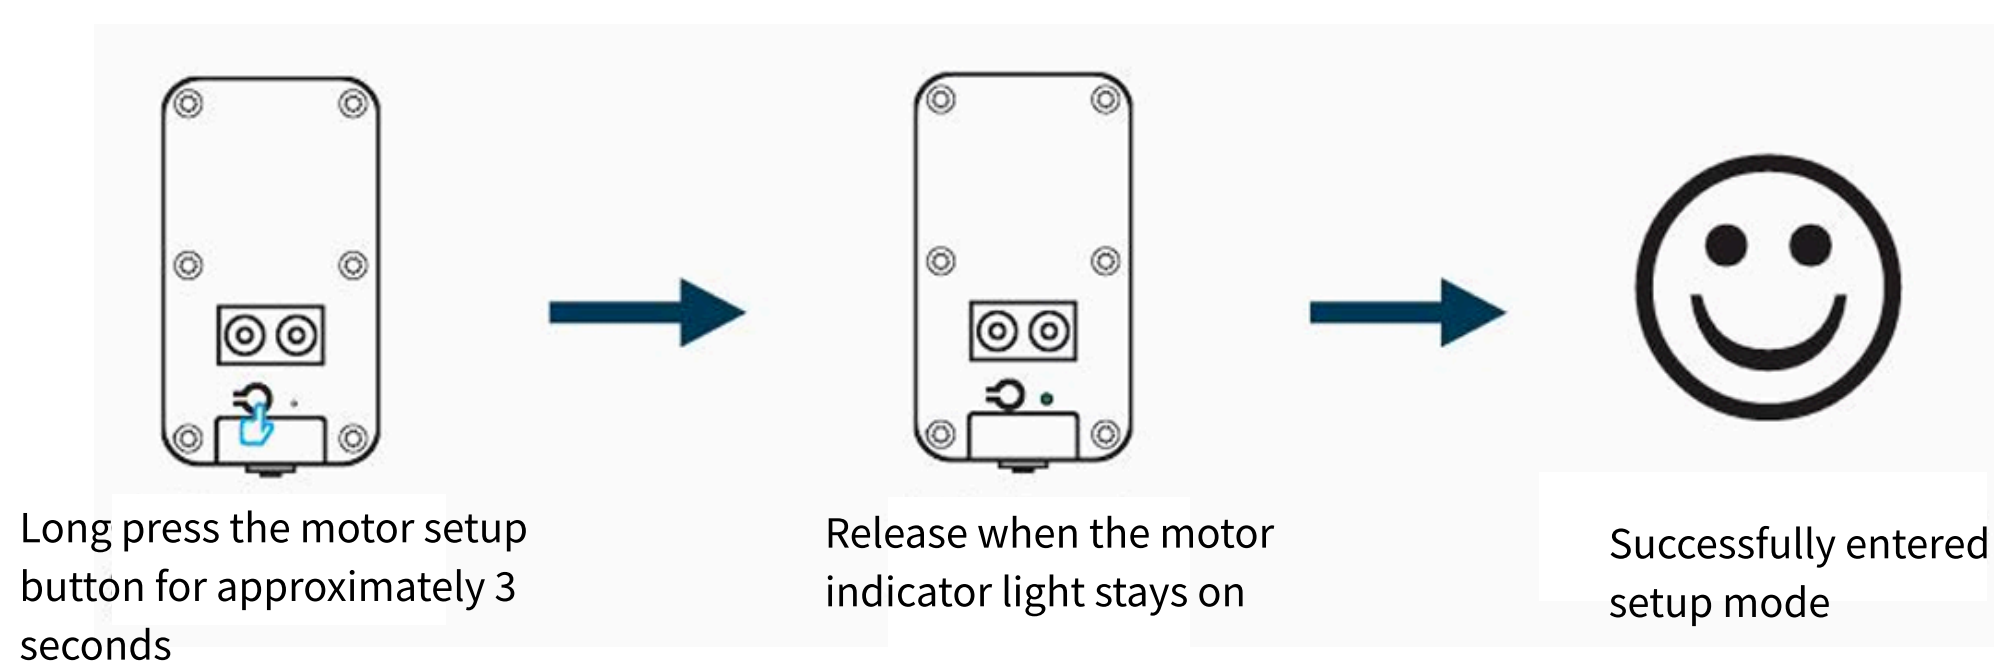

Figure 2

Please read this manual carefully before using this product.

Product Electrical Parameters

Remote Control Pairing:

Open the back of the remote control and locate the P2 button. Long press the setup button to enter setup mode, then click P2 twice consecutively, and click the remote's UP button once to indicate successful pairing (as shown in Figure 3).

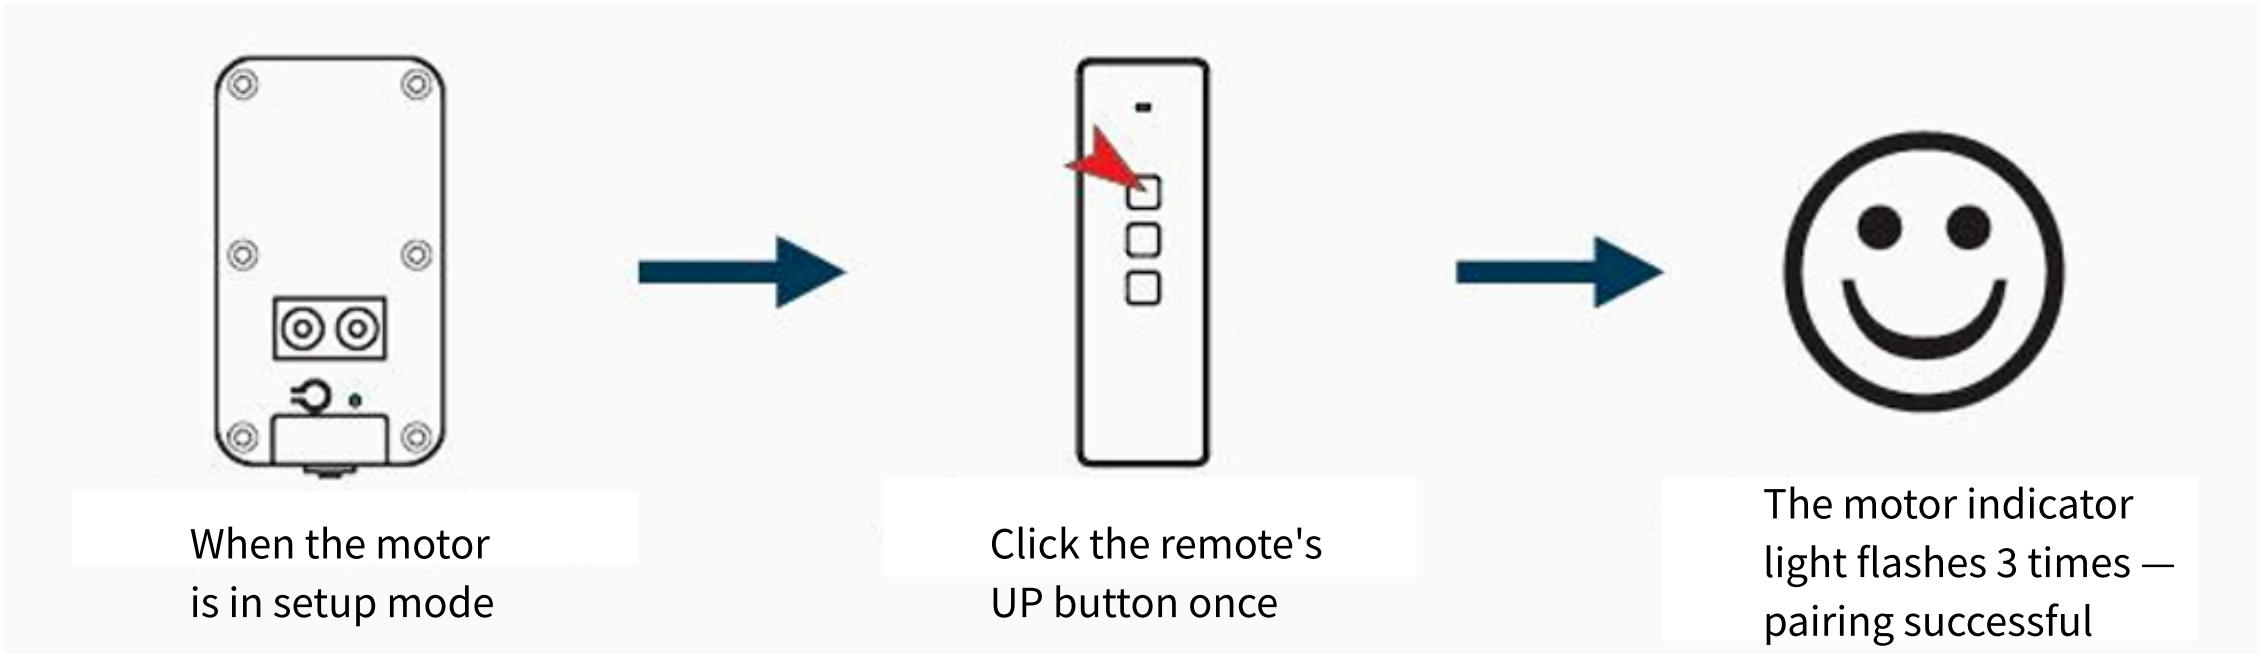

Figure 3

Motor Direction Reversal:

Only the remote control that has been paired can perform this operation. After reversal, the control direction of all control methods will be completely reversed (as shown in Figure 4).

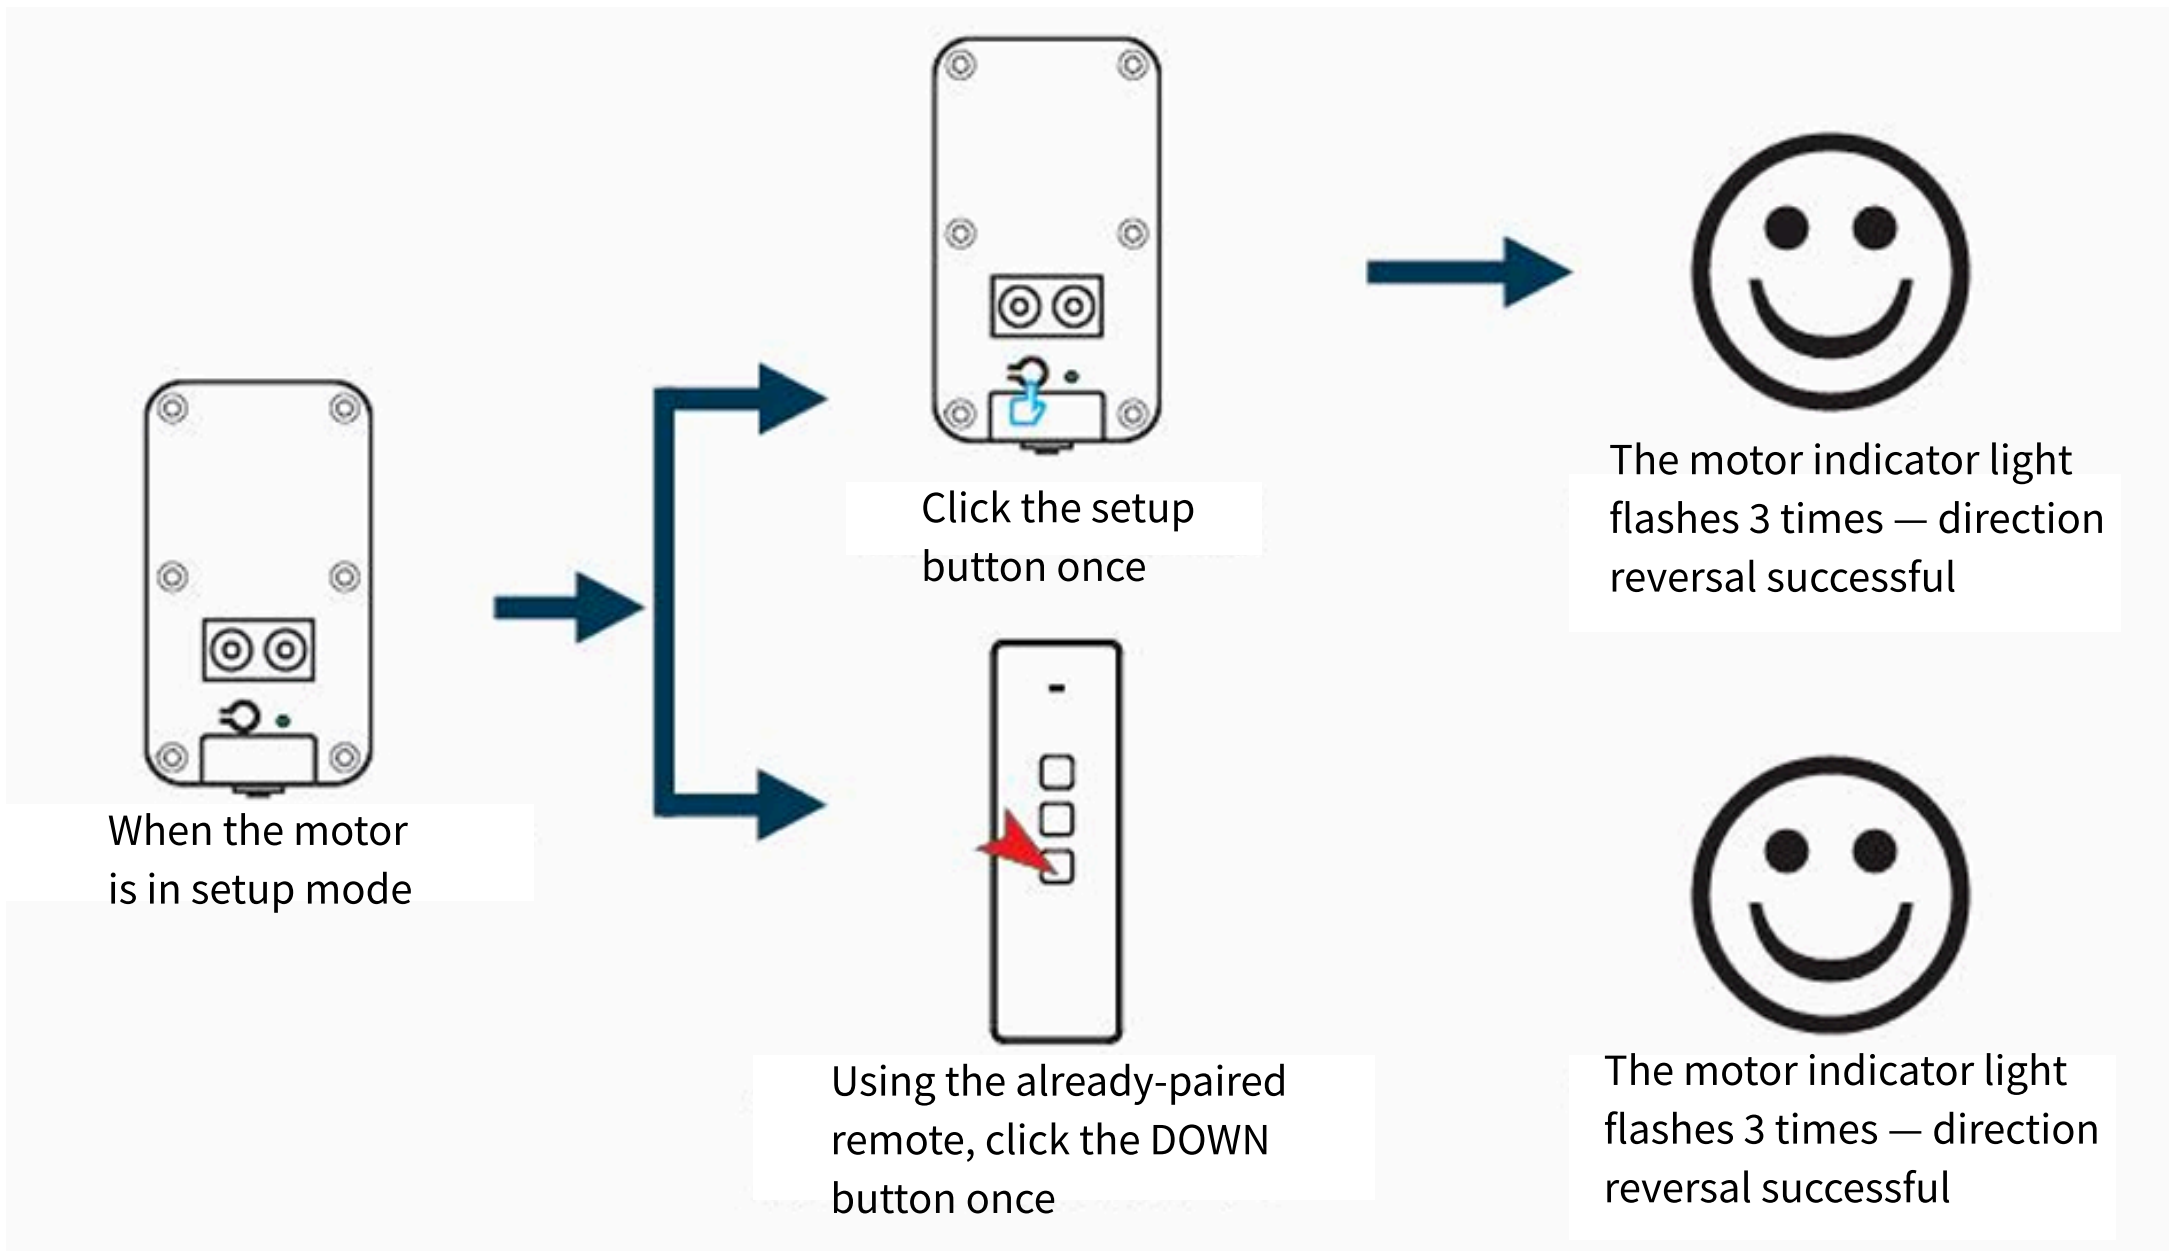

Figure 4

Please read this manual carefully before using this product.

Product Electrical Parameters

Motor Network Pairing:

After joining the network, clicking the setup button three times again will manually exit the network and re-enter the pairing state (as shown in Figure 5).

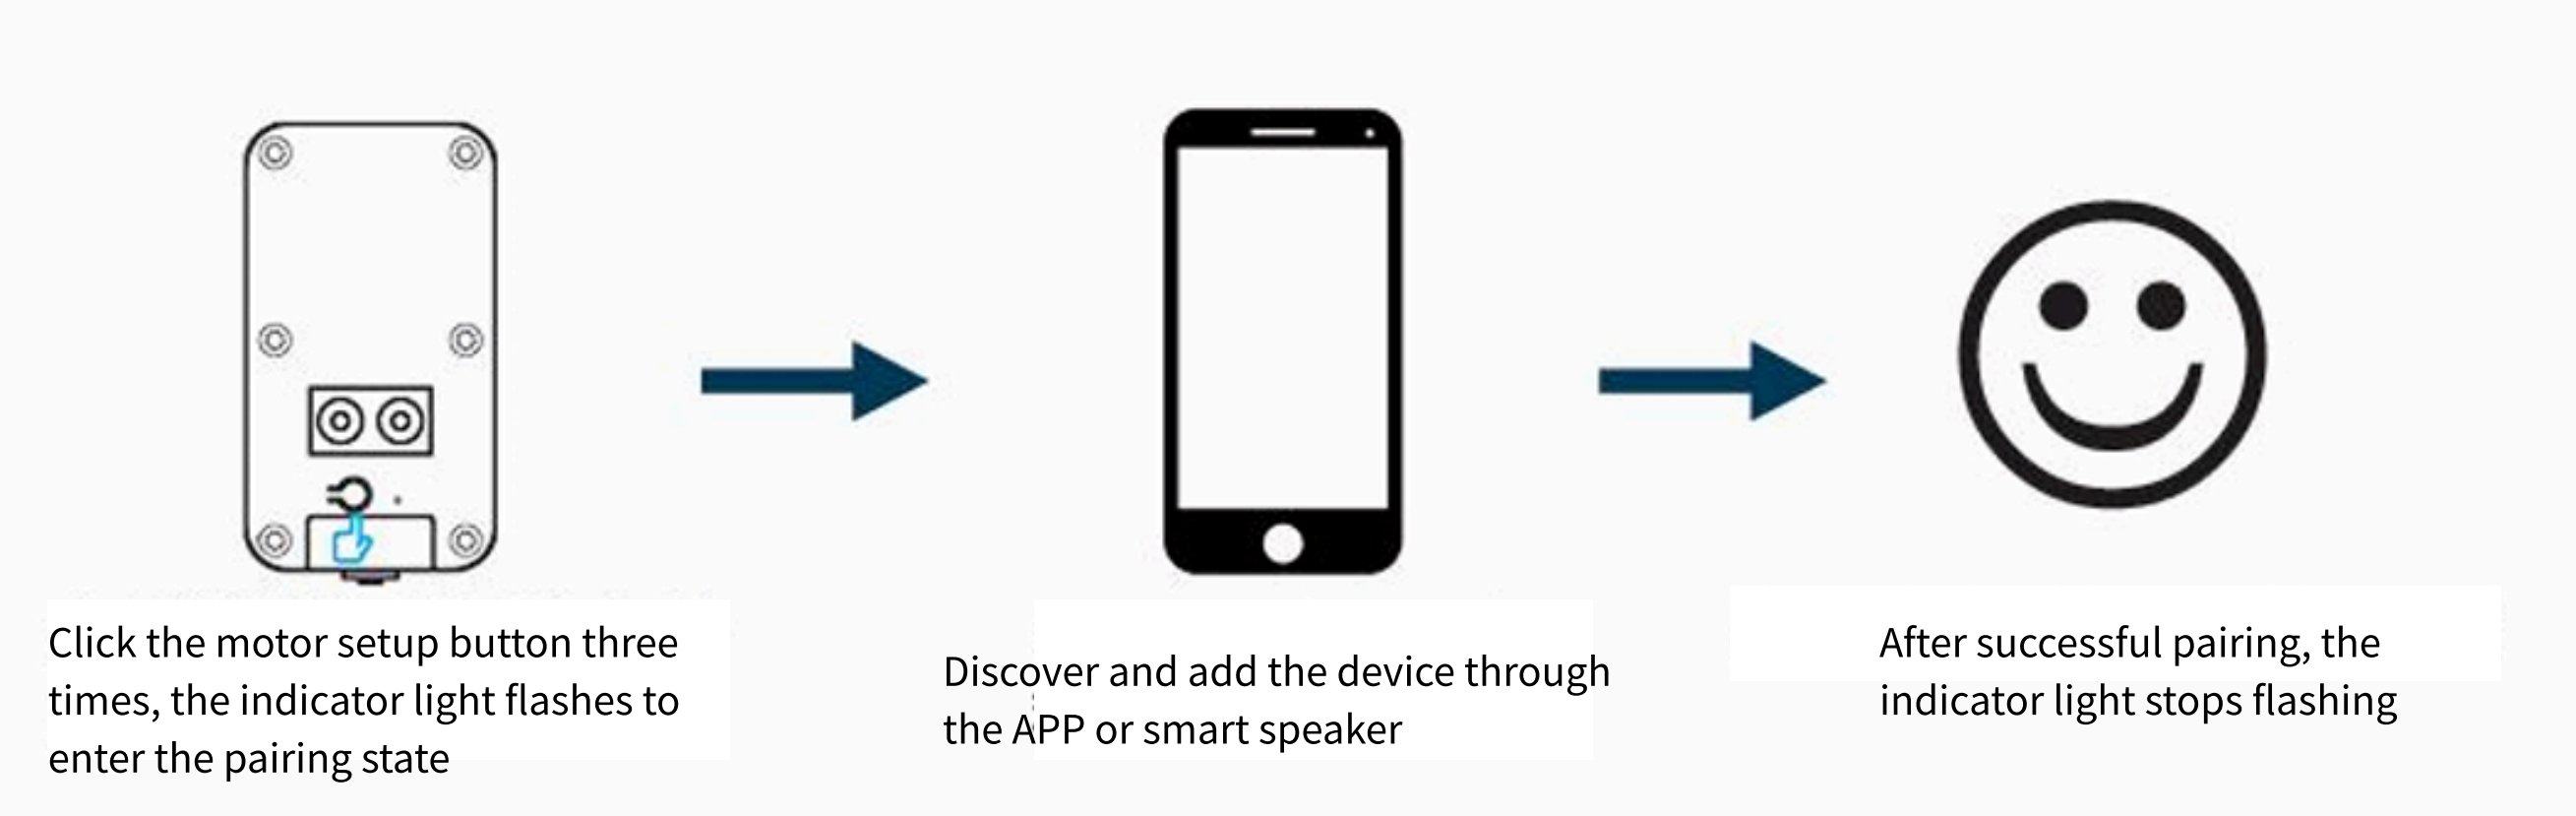

Figure 5

Speed Setting:

Speed is adjustable in three levels: Level 1 = Slow, Level 2 = Medium, Level 3 = Fast (as shown in Figure 6).

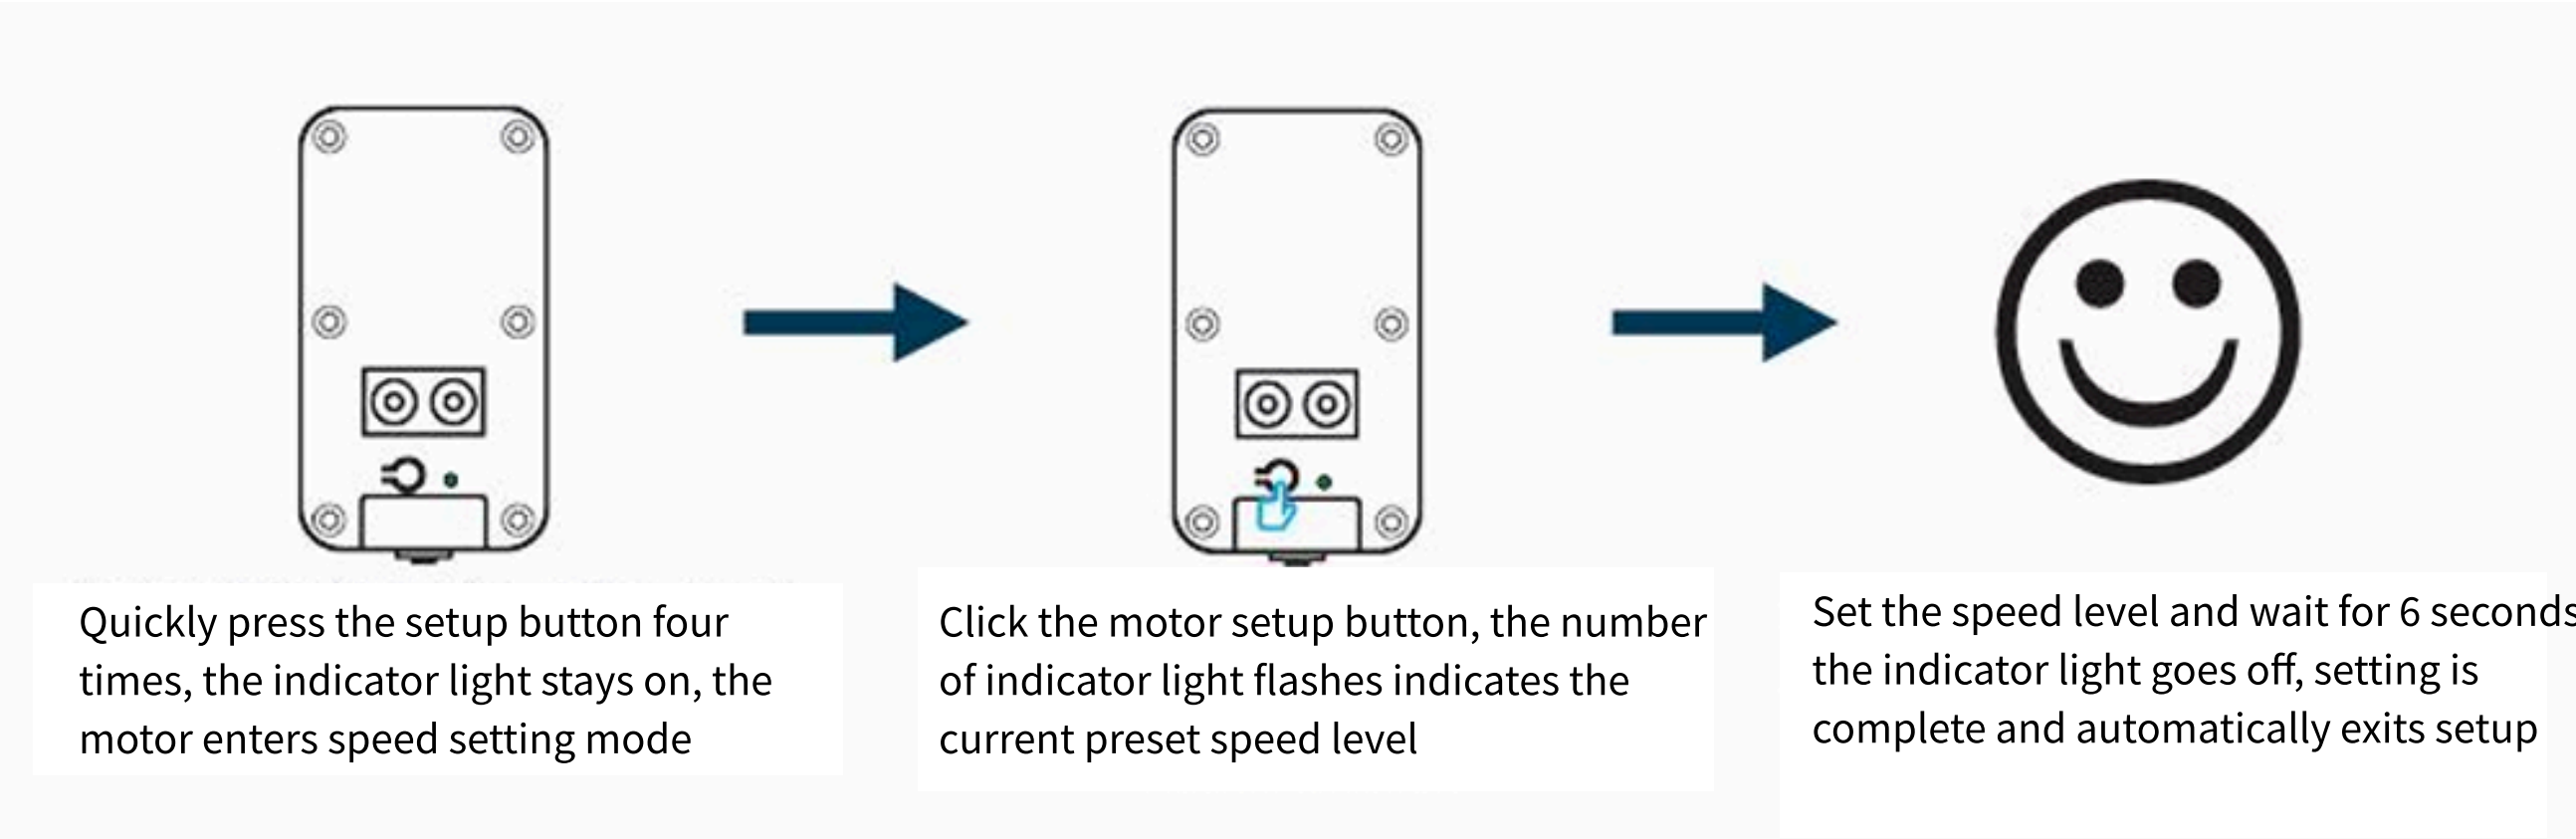

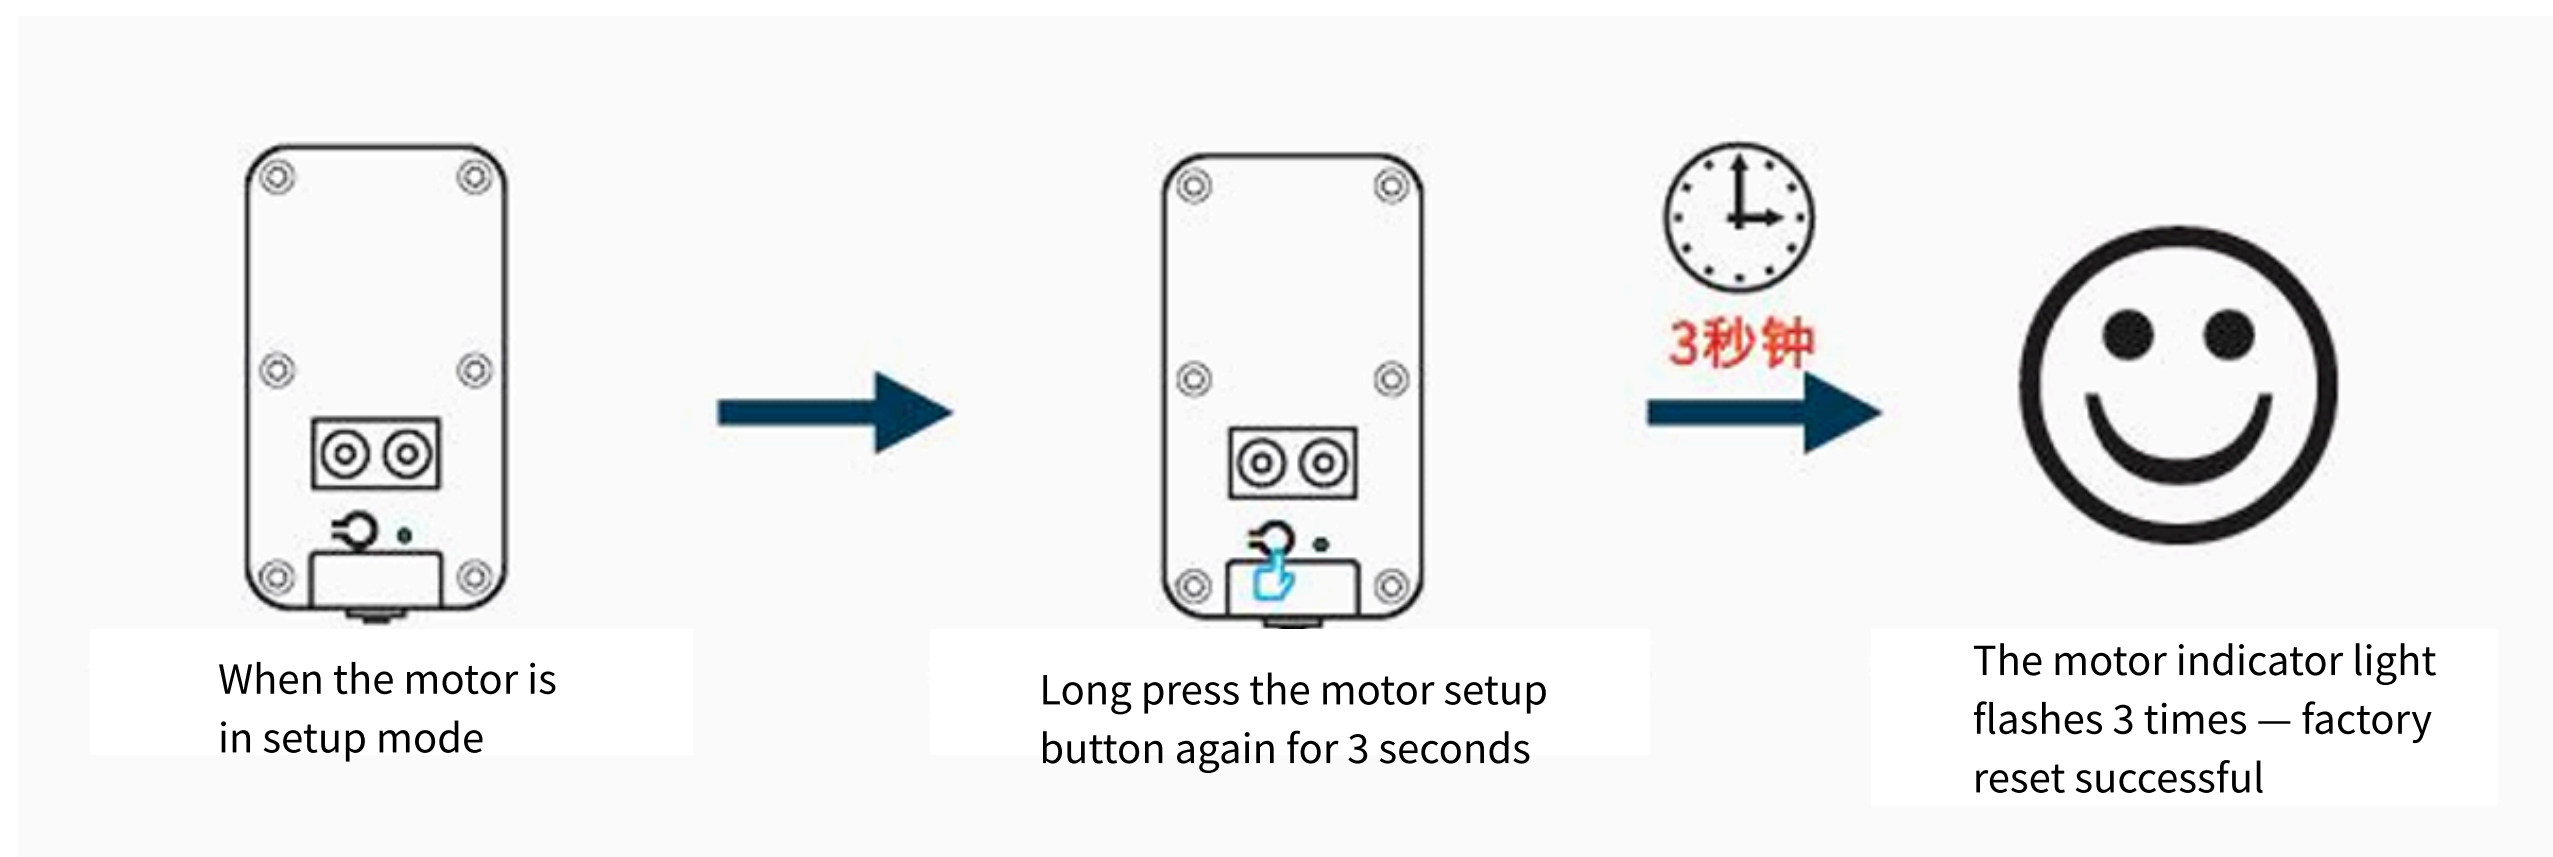

Figure 6

Factory Reset / Code Clear

Factory reset will clear the motor travel memory, remote control pairing, direction reversal, hand-pull settings, and speed settings (as shown in Figure 7).

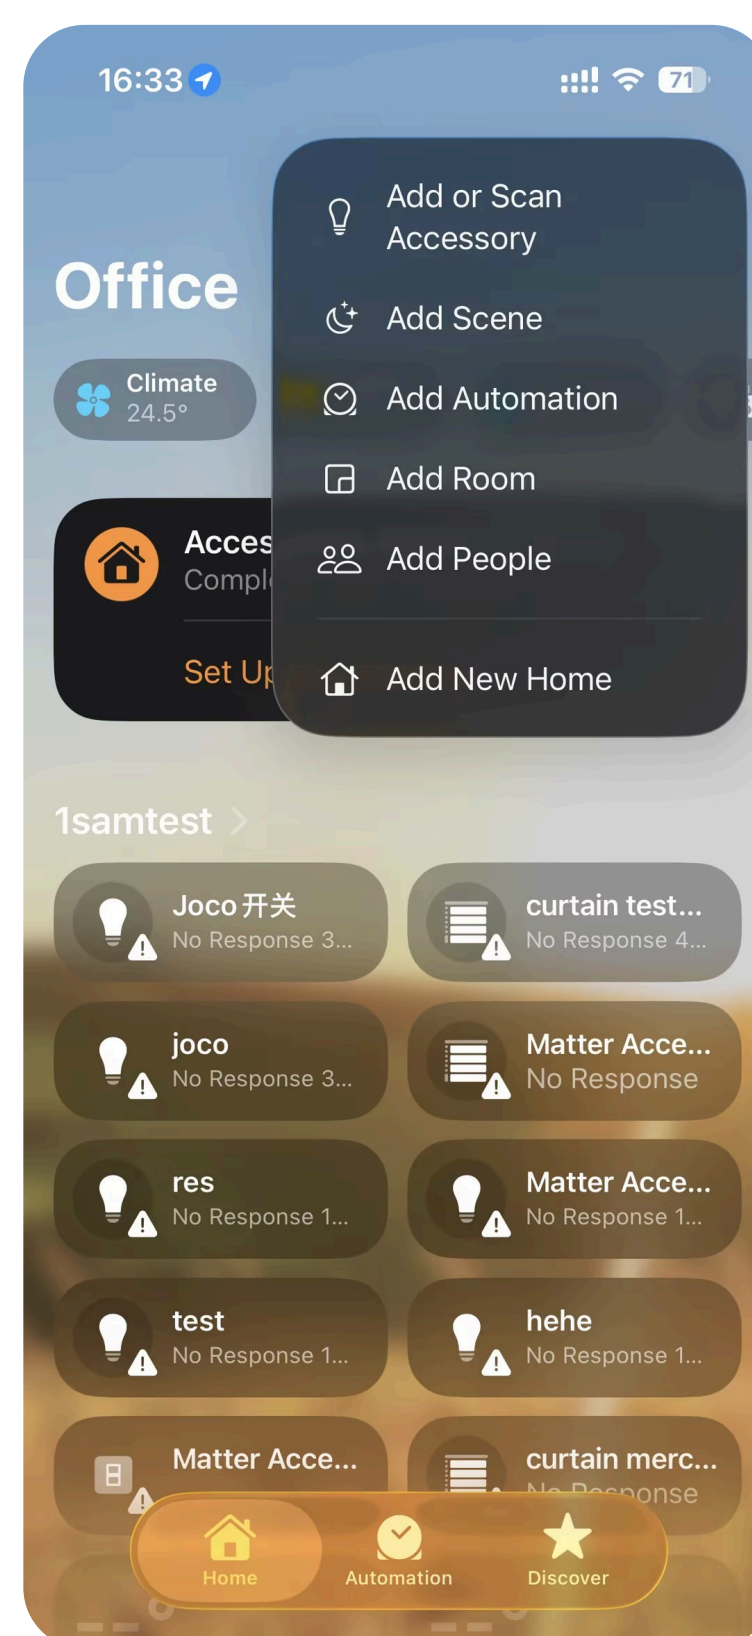

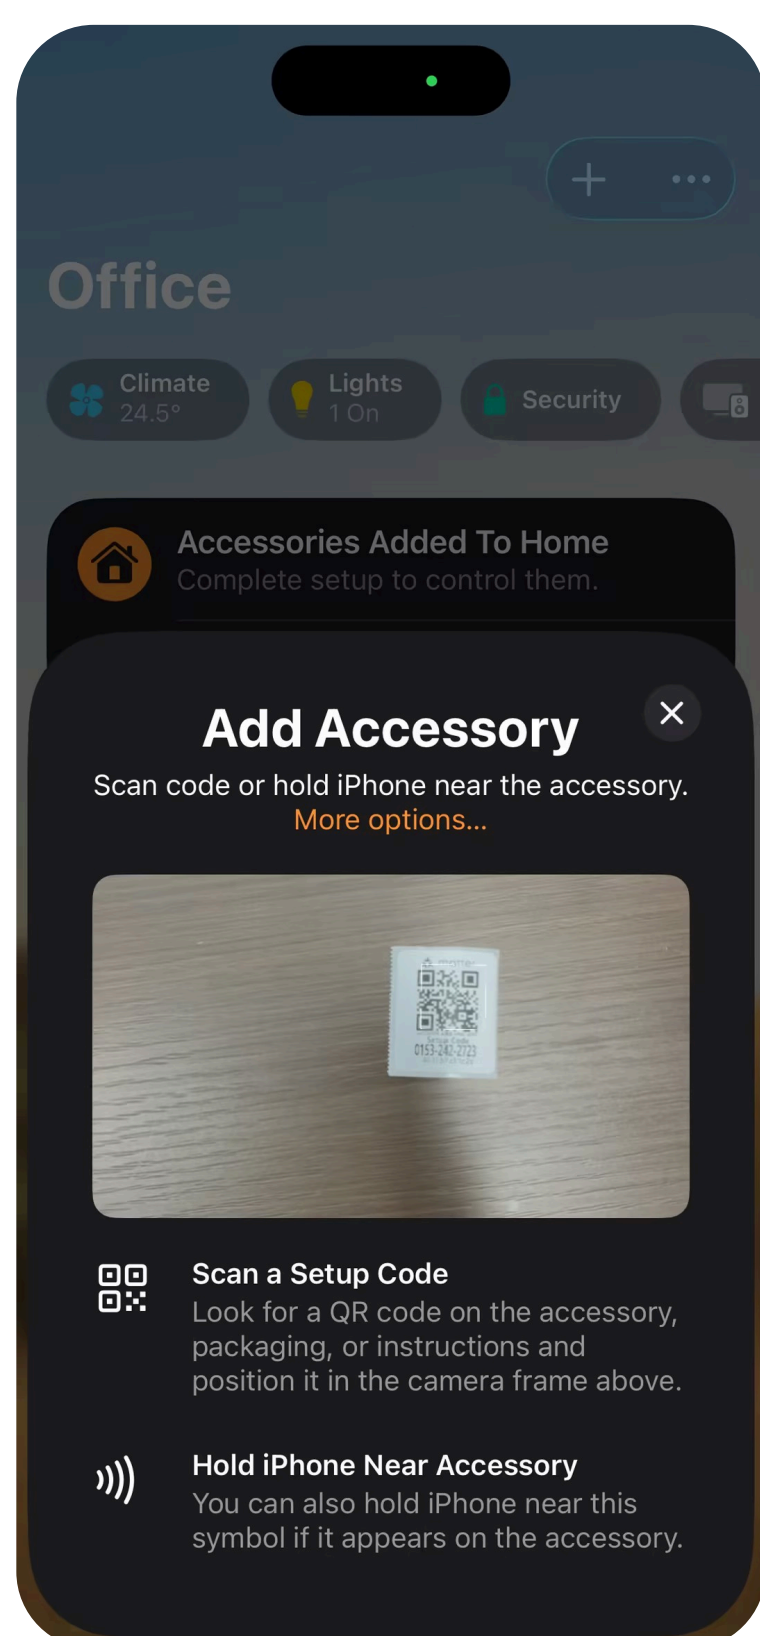

Please read this manual carefully before using this product.

Product Electrical Parameters

Smart Curtain Motor Network Pairing:

1. Power on the device
2. Open the smart home app on your phone (Google Home, Apple Home, Amazon Alexa, Samsung SmartThings, or other Matter-supported apps)
3. Use a Matter-supported app to scan the QR code
4. Or manually enter the setup code
5. Follow the in-app prompts to complete network pairing
6. Done

Please read this manual carefully before using this product.

CURTAIN MOTOR RESET

1. Connect Power

- Connect the curtain motor to power correctly, ensuring the device remains powered on
- Locate the setup button on the back of the motor

2. Perform Reset Operation

- While the motor is powered on, press the setup button at a steady pace 3 times
- When the indicator light flashes continuously 3 times, the reset has been successfully completed

Please read this manual carefully before using this product.

Thank You
